Chapter	Variations
About Reference Data and Symbology with History Global - DaaS	<p>Our Reference Data and Symbology with History Global on Data as a Service allows customers to access curated content; either through a bulk data feed or through direct access to our integrated and normalized database of ready-to-use reference and Symbology data. This enables integration and interoperability of the LSEG content like ESG or Fundamentals content into proprietary models and customer applications. Our Reference Data and Symbology with History Global – Data as a Service provides access to the basic reference data for all Organizations, Equity instruments and quotes along with identifiers like LEI, CUSIP, ISIN, SEDOLs etc with current and historical data.</p> <p>Our Reference Data and Symbology with History Global – Data as a Service provides coverage of up to 110,000 active and inactive, both public and private companies which have LSEG ESG or Fundamentals content covered. This service also includes the identifiers like CUSIP and ISIN which are sourced from third party sources and need a third party license to access these specific identifier data.</p> <p>This service will be available to all the users subscribed to content from Data as a Service products like ESG and Fundamentals.</p>
